File type: pdf, docx.
(**Unstructured data**)

A. I used Python to deal with the unstructured data and turned them into the structured data.

	A	B	C	D	F	G
1	File Name	Folder Path	Full Path	File Typ	Professor	Email
349	Hayek_The_Road_t	[redacted]	[redacted] studying record,	pdf	[redacted]	[redacted]
371	ECON520.lecture1	[redacted]	[redacted] studying record,	pdf		
378	BASIC_CBA Syllabu	[redacted]	[redacted] studying record,	docx		
389	recommendations	[redacted]	[redacted] studying record,	docx		
419	1. IntroToOM_Clas	[redacted]	[redacted] studying record,	pdf		
460	Dell_Upcycling Oce	[redacted]	[redacted] studying record,	pdf		
463	ocean-plastic-whit	[redacted]	[redacted] studying record,	pdf		
517	ACTG 500 - Magina	[redacted]	[redacted] studying record,	docx		
558	Group Project 2 Su	[redacted]	[redacted] studying record,	pdf		
564	Group Project 2 Su	[redacted]	[redacted] studying record,	pdf		
594	Thankful letter_202	[redacted]	[redacted] studying record,	docx		
597	Porter - 1996 - Wha	[redacted]	[redacted] studying record,	pdf		
598	The five competitiv	[redacted]	[redacted] studying record,	pdf		
600	Memo of Moneyba	[redacted]	[redacted] studying record,	docx		
607	Transient Advantag	[redacted]	[redacted] studying record,	pdf		

I used Excel function to clean data. In the future, I will use Python to do this process.

B. Then, I cleaned data to keep structured data in Excel file.
